-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-10, and 12-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Barker (2011703) in view of Roccaforte(5503328). Barker teaches a multiple use box with a plurality of sides connected to each other having four top flaps B', C', D', E' each extends from one side to another as shown in Fig. 5. Barker meets all claimed limitations except for tear strip on each top flaps. Roccaforte teaches that it is known in the art provide a tear strip for opening the box. It would have been obvious for one of ordinary skill in the art to provide a tear strip for each flap in Barker as taught by Roccaforte to open the box easily.

Regarding claims 3, 5, it would have been obvious for one of ordinary skill in the art to provide a square box to provide the desired shape for the container.

Regarding claims 16 and 21, Barker teaches the attaching of one top flap to another top flap. Barker meets all claimed limitations except for tear strip on each top flaps. Rasmussen teaches that it is known in the art provide a tear strip for opening the box. It would have been obvious for one of ordinary skill in the art to provide a tear strip for each flaps in Barker as taught by Rasmussen to open the box easily.

Regarding claim 6, note that Roccaforte teaches the use of double sided tape (col. 8., ln. 60).

Response to Arguments

2. Applicant's arguments with respect to the claims have been considered but they are moot in view of the new rejections.

Please note the allowability of claims 5, 21-23 has been withdrawn in view of the new found reference of Barker.
